## Software Engineer – Beyond Limits – <https://beyond.ai>

03-2018 - 03-2020 – Glendale CA

Fast pace AI agency. We built clever apps and dashboards to visualize data and literally predict the future. I interfaced between the sales team and data-scientists, mentored junior engineers, and advocated for UX.

- Angular ▸ Vue ▸ React ▸ Redux ▸ Node ▸ Docker ▸ VisJS ▸ Plotly ▸ D3 ▸ admin dashboards ▸ wireframing

## Frontend Engineer – Luxul – <https://luxul.com>

12-2016 - 11-2017 – Draper UT

Led front-end design and development of control dashboards for high-end networking devices.

- React ▸ MobX ▸ form validation and generation ▸ design ▸ UX user testing ▸ admin dashboards

## Frontend Engineer – YouNow – <https://younow.com>

03-2015 - 03-2016 – NYC

Built features and unit tests for a live-video-streaming social network platform. Improved UI/UX.

- AngularJS ▸ form validation and generation ▸ design ▸ UX user testing ▸ admin dashboards

## Lead Web Developer – Focus Features – <https://focusfeatures.com>

10-2009 - 05-2014 – NYC

Marketing for whimsical thought provoking movies. I managed the website and built apps like a smart TV channel controlled by remote. Architected a modular templating framework in PHP for a custom CMS.

- PHP ▸ jQuery ▸ CMS ▸ website development ▸ SEO ▸ AB Testing ▸ marketing ▸ responsive design

BFA Media Arts 2009. Self taught with 13 years experience. Finally starting to get the hang of it. :)

I love developing/designing a product, analyzing ways to make it better. Collaborating with others.

Besides programming, I enjoy helping with design, UI/UX, user research, AB tests, analytics, data.
